Re: Water Right Permit No. **G2-25612** (System #225 Lew's 81<sup>st</sup>)

Dear Sir or Madame:

The request for assignment of the above-referenced permit has been processed, and we have changed our records to reflect the assignment. All future correspondence will be sent to you, unless we are otherwise advised.

To keep your permit in good standing, you must keep to the development schedule and send required progress reports in a timely manner. Your assignment included a proposal for a new development schedule. Your extension request has been granted for the reasons summarized below.

Reasons for granting extension:

- The supply needs of the public water system's service area.
- Indication of readiness to serve.

Your new deadline to put the water to **full beneficial use** and send a completed Proof of Appropriation form is **June 1, 2008**.

When you return the completed Proof of Appropriation form to us, be sure that:

- It is **notarized**.
- You have written in the **parcel number** for the lot for where your project is located. Parcel numbers can be found on property tax statements or obtained through the assessor's office.

Upon receipt of your Proof of Appropriation form, we will review the information and may come out to inspect your project. Once we are confident that all of the terms and provisions of your permit have been met, we will notify you by mail to request the certificate recording fees for the state and county.

As a condition of this extension, the Department of Ecology is adding metering provisions to update your permit according to the most recent metering statute, Chapter 173-173 WAC. Please review the new metering provisions located on the back of your water right permit.
